

Here are instructions to help UltraTax users sign up for a Free Trial of GruntWorx and instructions for how to use GruntWorx with UltraTax CS.

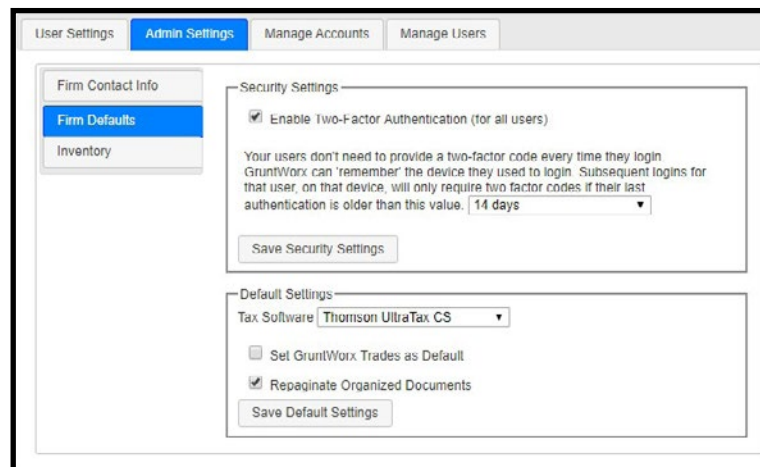

## How to Set up a GruntWorx Account

- ➔ From the GruntWorx.com homepage, enter email address and click **FREE TRIAL!**
- ➔ Complete the Registration
- ➔ Look for the sign-up email including the temporary password
- ➔ Log in to the GruntWorx Portal and set up new password
- ➔ Read and accept the master agreement and EULA
- ➔ In the top right-hand corner of the GruntWorx Dashboard, click on **Settings**

- ➔ Select the **Admin Settings** tab, then **Firm Defaults**
- ⚠ **TIP:** Only users with Administrator rights have access to Admin Settings.

### Security Settings

- Set firm-wide **Two-Factor Authentication** settings here

### Default Settings

- Select **Thomson UltraTax CS** as **Tax Software**
- Set firm-wide job preferences:
  - Option to have Trades Add-On as default
  - Option for Repagination as default
- Click **Save Settings** after making any changes

⚠ **TIP:** Repagination is where GruntWorx Organize sorts the pages you submitted in the order of the 1040.

→ Admin Settings also provides Firm Contact Info and Inventory settings

## Firm Contact Info

- Update any firm details
- Click **update firm** to save changes

## Inventory

- Provides detailed job history and the account's current balance
- Run a Job Cost Report by selecting start and end dates and clicking **download report**

Date	Memo	Credit Adjustment	Credit Balance
06/01/2020	beginning balance		598.60
06/03/2020	account clients / job 420073	-9.75	595.85
06/03/2020	client CLIENTDEMO / account default	-13.75	502.10
06/03/2020	client TEST123 / account default	-13.75	568.35
06/05/2020	account clients / job 420252	-2.75	565.60

→ Other Settings are **User Settings, Manage Accounts, and Manage Users**

**! IMPORTANT:** Admins must add users and give account permissions in order for others in the firm to have access.

## User Settings

- Update **User Contact Information** at any time. This is used for GruntWorx to report any issues with job submissions.
- **Job Status Notification** preferences can be changed to text, email or no notifications
- Set the user's **Two Factor Authentication** settings
- Click **Update User Settings** after making any changes

## User Preferences

- Change the **Default Display Tab**
- A **Warn when balance is below** field allowing the user to be alerted when the account balance reaches the selected amount.
- Admin users will have a check box to have the **billing data displayed on the dashboard**

**! TIP:** This is a great way to see individual costs at a glance

- **Change Your GruntWorx Password** here

**! TIP:** Passwords expire every 90 days

➔ To continue set-up, click **Download Agent** from the GruntWorx Dashboard

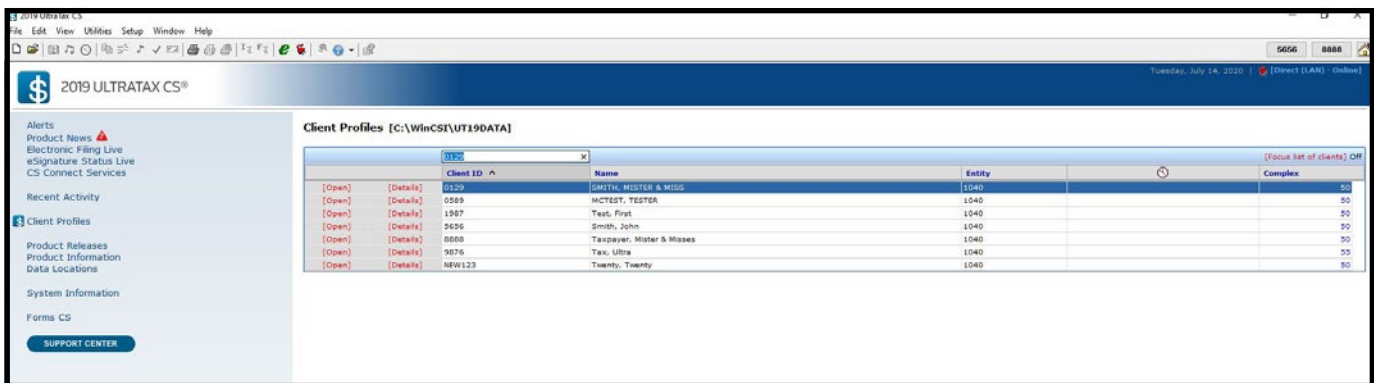

- ➔ Once the download is complete, run GWAgentSetup.exe (the file you downloaded) and select **GruntWorx Agent for Thomson UltraTax CS**
- ➔ Follow the prompts to complete installation

**⚠ IMPORTANT:** Depending on the user's IT policies and browser permissions, installation of the GruntWorx Agent may require administrator rights and/or the assistance of firm IT personnel. In some cases, anti-virus software should be temporarily disabled to allow a complete installation of the GruntWorx Agent software.

## Considerations for UltraTax CS Users

- ➔ To submit jobs from the GruntWorx Dashboard or to populate data from the GruntWorx provided Excel Pointsheet, users should have the UltraTax **Client Profiles** screen open.
  - The user must also be logged-out of the client tax file during these times.

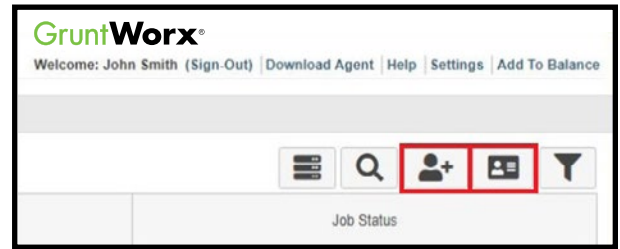

- ⚠ TIP:** Access the screen by clicking the Home button (house icon at upper right) and then selecting **Client Profiles** on the left panel with the Dollar sign. From a blank page after clicking on the **Home** button, click File in upper left, then Open Client. Dismiss the client selector to show the **Client Profiles** page.
- ⚠ TIP:** If more than one version of 1040 tax files are maintained for any one client, be sure to exempt from Data Sharing the versions of the client tax files that the user doesn't want to be populated by GruntWorx.
- ⚠ IMPORTANT:** Minimum required fields in the client tax file: Taxpayer and spouse name(s), SSN(s) and filing status

### Steps to Populate for Using GruntWorx with the Virtual Office version of UltraTax

1. Download a Local copy of the tax program
2. Set up a GruntWorx Account and install Agent
3. Backup 1040 clients to local copy of the tax software
4. Process GruntWorx jobs following this Quick Start Guide
5. Restore the populated client file to the cloud – in batches or as required
6. Open the client tax file and using Data Sharing, accept populated records into the tax program

# How to Submit Jobs

- ➔ **Add Clients**
- ➔ From the **GruntWorx Dashboard**, click on an icon to add client(s)

**Adding Client to Clients**

First Name \*

Spouse Name

Last Name \*

Client ID / Locator\*

Client ID/Locator must match tax software

(\*) required fields

cancel    reset    save and add another    save

- ➔ To add a **single** client:
  - Click on the **+** icon and fill out all required fields

**! IMPORTANT:** Client ID must be identical to the UltraTax Client ID

- ➔ To add **multiple** clients:
  - Click on the **+** icon to upload a .csv file
  - Follow the instructions and template to create the .csv import file
- ➔ To submit the client source documents: Click on the client's name, then either drag-and-drop PDF files, or click in the field with the dotted lines to browse the computer for files

**Import Clients into Clients**

Select a CSV file to import

import    cancel

The CSV file must be in this format:

Last Name, First Name, Spouse Name, Client ID

CSV info

- The CSV file should not use column headers: only the client information, in separate columns, following the above format
- Up to 500 clients can be imported with each CSV file.
- Spouse Name is an optional value and may be left blank (but the column must be present).
- The ClientID must contain only letters, numbers, and/or a comma.
- The ClientID should match that in your tax software.

Example:

	A	B	C	D
1	Washington	George	Martha	1789-1797
2	Adams	John	Abigail	1797-1801
3	Jefferson	Thomas	Martha	1801-1809
4	Madison	James	Dolley	1809-1817
5	Monroe	James	Elizabeth	1817-1825

**! IMPORTANT:** Add up to 15 PDFs per client, 150MB per PDF.

- ➔ Once all the files are uploaded, click **process files**

- ➔ Two boxes will appear
  - Choose either **Populate**, to have all the data extracted and imported into UltraTax and have it Organized into a bookmarked PDF or **Organize**, to only receive a bookmarked PDF, labeled with Payer Names.
  - Then choose to either **Extract Trades**, or have **No Trades** extracted.
- ➔ Once selections are made, click **Submit**

**! TIP:** If a client provides their Capital Gains transactions or trades in excel format, do not submit to GruntWorx. Import the transactions directly into the return from within the tax software.

→ Proforma collection will begin

⚠ **TIP:** The GruntWorx Agent will access the client tax file in UltraTax to retrieve the client's proforma info and submit the job to GruntWorx

⚠ **IMPORTANT:** If the GruntWorx Agent does not find the client SSN/s, the user will be asked to browse to a different data path. If the user declines, they are given the option to type the client SSN/s. The user should select yes when asked to *always enter SSNs manually only* if it is the preferred method for each submission. GruntWorx Support can help to remove this setting.

→ Once the job is complete, a job completion **text message or email notification** is sent to the user

## When a Job is Complete

→ After receiving a Job Completion notification, log back in to the GruntWorx Dashboard

- If the site stayed open in the browser, the page will need to be refreshed, and sign in again

→ Click on the client's name—notice the Job Status is **Completed**

- If Organize was selected, there will be a PDF named **bookmarked.pdf**
- If Trades was added to Organize, there will also be a **Pointsheet.xls**
- If Populate or Populate with Trades was selected, there will be a **bookmarked.pdf** and a **Pointsheet.xls**

The screenshot shows the GruntWorx dashboard interface. At the top, it says 'Welcome: John Smith (Sign-Out) | Download Agent | Help | Settings | Add To Balance'. Below that, there's a 'Clients' section with a tab for 'Organize Lite'. A table lists client entries. The first entry is for 'SMITH, JANE' with ID/Locator '1234', Job Type 'Populate', and Job Status 'Completed (3)'. Below this entry, two files are listed: 'bookmarked.pdf' and 'Pointsheet.xls'. A second entry for 'SMYTH, JUSTIN' is partially visible below. A small statistics box on the right shows: Page Processing (2 copies) 0:10, Page Validation (2 copies) 0:30, Form Population (2 forms) 1:00, TOTAL 1:40. At the bottom left, it says 'Showing 1 to 5 of 5 entries'.

Client Name	ID/Locator	Job Type	Job Status
SMITH, JANE	1234	Populate	Completed (3)
SMYTH, JUSTIN	0509	Populate + trades	Completed (3)

→ Simply click on either file name to download and open

→ The **Pointsheet.xls** file requires Microsoft Excel to view, edit and Populate

• After opening the .xls file, the user will need to enable Excel's macro feature

- The user should then review the **Diagnostics sheet**
  - There may be comments or flags on certain pages added by GruntWorx validators. If the job has any Customer Diagnostic Notes, it is recommended that the user check those pages thoroughly and make any necessary changes before moving on.

	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	
1	<b>Tax Payer: Smith, John</b>														<b>Preparer Notes:</b>	
2	<b>Tax Year: 2020</b>															
3	<b>Client Id: 01234</b>															
4							Check Data	Populate								
5																
6																
7	<b>Diagnostics -</b>														<b>Review Notes:</b>	
8	<b>Forms classified but not extracted for population</b>															
9	<b>Forms classified but not populated by GruntWorx</b>															
10			- 1095 C													
11			- 1099 SA													
12			- 5498 SA													
13	<b>Professional review required</b>														<b>Ask Client:</b>	
14	<b>Potential duplicate/corrected documents detected - make edits, verify match prior to population</b>															
15			- 1099 R - CA Duplicate 1													
16	<b>Customer Diagnostic Notes</b>															
17			- 1099 R - Pa	More than one form/record on this page - Only one form/record extracted												
18			- 1099 R - Pa	More than one form/record on this page - Only one form/record extracted												
19			- 1099 R - Pa	More than one form/record on this page - Only one form/record extracted												

- ⚠ **TIP:** Review or edit the extracted data on each tab of the workbook.
- If edits were made in the Pointsheet, the user should click **Check Data** to verify field formatting is still correct after making the necessary changes.
- ⚠ **TIP:** Blue hyperlinks are provided with each form extraction and, when clicked, will bring the user directly to the corresponding page in the opened PDF.
- With UltraTax open, and the client's tax file closed, click **Populate** inside the Pointsheet excel file
- The Agent will then populate the data into the client file. These changes can be viewed on the screen as they are being imported. The Agent should be given the time to complete the import.
- When the import is complete, open your client's return.
- UltraTax's Data Sharing tool will prompt the user to accept populated records into the tax program
  - Users can easily review or adjust any fields within the client's file in UltraTax.

For more information on the Pointsheet, please refer to the [Pointsheet Guide](#) and [Pointsheet video](#)

Tips for best scanning practices can be found here in this [video](#).
