Considerations for Thomson GoSystem Tax RS Users

> At the **User Settings** tab of the GruntWorx Dashboard **Settings**, users will add their GoSystem Tax RS login credentials.

⚠ **TIP:** When the user's login or password for GoSystem is updated, the user **must also update** the GruntWorx login and password to match.

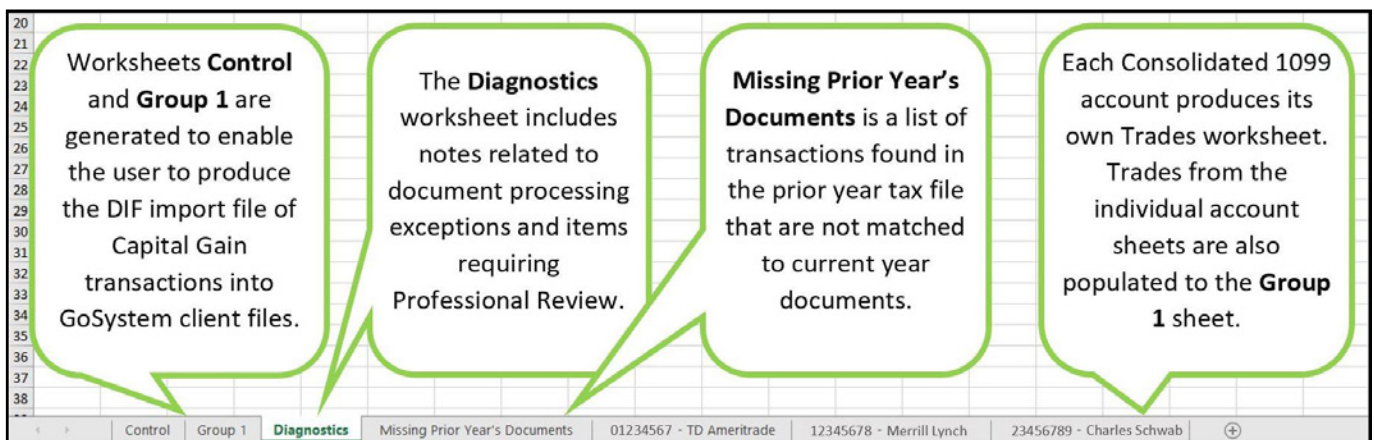

> Under the **Manage Accounts** tab in Settings, users begin with a default account named Clients. During set-up and before the user's first submission, the default account should be **re-named to match** one of the firm's GoSystem Tax RS accounts.

⚠ **TIP:** All Account names must match the specific GoSystem Tax RS accounts associated with the firm's client tax files.

⚠ **IMPORTANT:** Minimum required fields in the client tax file: Taxpayer and spouse name/s, SSN/s and filing status located on the Taxpayer Information screen in the General Information section of the Client Organizer.

⚠ **IMPORTANT:** The user **MUST** be logged out of the GoSystem Client tax file during job submission and population.

Worksheets **Control** and **Group 1** are generated to enable the user to produce the DIF import file of Capital Gain transactions into GoSystem client files.

The **Diagnostics** worksheet includes notes related to document processing exceptions and items requiring Professional Review.

Missing Prior Year's Documents is a list of transactions found in the prior year tax file that are not matched to current year documents.

Each Consolidated 1099 account produces its own Trades worksheet. Trades from the individual account sheets are also populated to the **Group 1** sheet.

How to Submit Jobs

- > Add Clients
 - From the **GruntWorx Dashboard**, click on an icon to add client/s

(*) required fields

cancel reset save and add another save

- > Add a Single Client
 - Click on the icon and fill out all required fields

⚠ IMPORTANT: Client ID and Account number must be identical to the GoSystem Locator and Account number.

Import Clients into Clients ✕

Select a CSV file to import

import cancel

The CSV file must be in this format:

Last Name, First Name, Spouse Name, Client ID

CSV info

- The CSV file should not use column headers: only the client information, in separate columns, following the above format.
- Up to 500 clients can be imported with each CSV file.
- Spouse Name is an optional value and may be left blank (but the column must be present).
- The ClientID must contain only letters, numbers, and/or a comma.
- The ClientID should match that in your tax software.

Example:

	A	B	C	D
1	Washington	George	Martha	1789-1797
2	Adams	John	Abigail	1797-1801
3	Jefferson	Thomas	Martha	1801-1809
4	Madison	James	Dolley	1809-1817
5	Monroe	James	Elizabeth	1817-1825
6	Adams	John Quincy	Louisa	1825-1829
7	Jackson	Andrew		1829-1837
8	Van Buren	Martin		1837-1841

- > Add Multiple Clients
 - Click on the icon to upload a .csv file.
 - Follow the instructions and template to create and import the file

⚠ TIP: When adding clients, make sure they are being added under the appropriate account tab on the GruntWorx Dashboard.

- > To submit client's source documents: Click on the client's name, then either drag and drop PDF files into the dotted box or click in the box to browse computer for PDF files.

- Choose either **Non-Validated** or **Validated by GruntWorx**
- Non-Validated products are **not** reviewed by GruntWorx for accuracy. The documents are processed with OCR and Business Intelligence technology only.
- Validated products process through OCR and Business Intelligence as well as human review by GruntWorx Validators. Make the choice of **Organize Lite**, **Populate Lite**, **Organize** or **Populate**.
- Make **Trades** selections
- Non-Validated products do not have the option to add a Trades product. However, Populate Lite has an option for Trades Summary within the self-validation tool. There is no need to add Trades Summary to Populate Lite during Product selections.
- Validated products can have **Extract All Trades** or **Trades Summary** added. Or have **No Trades** extracted.
- > Once selections are made, click **Submit**

⚠ TIP: For Product and Pricing information, click a Help button.

When a Job is Complete

- When a job is complete, a job completion **text message or email notification** is sent to the user if set up in User Settings. Log back in to the GruntWorx Dashboard and locate client.
- If the site stayed open in the browser, the page will need to be refreshed, and sign in again
- When Job Status is **Completed**, click on the client's name

⚠ TIP: When the status is Completed, it means the extracted data has been imported into the client's return within the GoSystem tax software.

- If Organize Lite or Organize was selected, there will be a PDF named **bookmarked.pdf**. If a Trades product was added to Organize, there will also be a **Pointsheet.xls**.
- If Populate Lite or Populate, with or without a Trades product was selected, there will be a **bookmarked.pdf** and a **Pointsheet.xls**.

<input checked="" type="checkbox"/>	SMITH, JOHN & JANE	SMITH	Populate	Completed
bookmarked.pdf				
Pointsheet.xls				

- Simply click on either file name to download and open
- The user should then review the **Diagnostics sheet**
- There may be comments or flags on certain pages added by GruntWorx Validators. It is recommended that the user check those pages thoroughly and make any necessary changes in the client tax file within GoSystem tax software.

⚠ TIP: Blue hyperlinks are provided with each form extraction and, when clicked, will bring the user directly to the corresponding page in the opened PDF.

⚠ IMPORTANT: The Diagnostics Sheet is purely for user review, as the extracted data in the Pointsheet has already been imported into the client's return.
